

### Cut Protection

VP220

Lightweight work glove with nitrile foam finish coating, machine-knitted for cut level B/A2, featuring reinforced thumb crotch for enhanced durability and protection.

#### FEATURES

- The distinctive nitrile micro-foam finish ensures outstanding grip performance in dry, wet, and oily conditions.
- A 360-degree breathable coating keeps the hands cool and comfortable throughout usage.
- Ergonomically designed for a superior fit, feel, and overall comfort during extended wear.
- Exceptional abrasion resistance promotes long-term use and enhances overall durability.
- Oeko-Tex standard certified and treated with Sanitized™, ensuring high-quality and hygienic standards.
- Compliant with REACH directives and utilizes Azo-free dye for an environmentally conscious approach.

#### CERTIFICATIONS

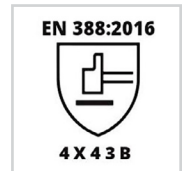

- CE category ii Certificate
