

Impact Protection

VP610

An impact protection glove featuring a sandy finish, reinforced thumb crotch, palm padding, and ANSI cut protection level A4. This design provides enhanced protection while ensuring a strong grip when working with oily materials, handling metals, or operating machinery.

FEATURES

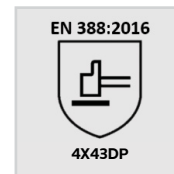

- Soft seamless construction offers increased comfort and breathability.
- Reinforced thumb crotch
- Padded palm for extra comfort and protection.
- TPR reinforcement on the back of the glove for impact protection
- Washable, resistant to chemicals, water, and oil conditions.

CERTIFICATIONS

- EN 388:2016 (4X43DP)
- ANSI Cut level A4
